Introduced ourselves by wearing name tags.

A little back ground was shared by everyone.

The residents had questions on what has been done to this point.

Peggy stated the the Board has contacted two Civil Engineers, one in Northern Virginia and one locally, for a letter stating the cost and what services would be provided for that cost, in doing a complete comprehensive study on our parking situation, and any and all solutions. It was requested we get these letters by May's Board Meeting, but so far we have not them received.

There was discussion of what the Committee can do and has to do it.

They selected a Chairman: Patricia Rodreguez and
Secretary: Jennifer Batson

There was some discussion about the duties that would have to be done. And the importance of communication to the residents, the committee and with the Board of Directors though a Liaison.

The next meeting Saturday June 3, 2017 at 10 am at the Community Center (to be confirmed that it is free)
